

**WORLD CONFERENCE PREPARES VIDEOCONFERENCE FOR DEBATING  
UNIVERSAL SOCIAL SECURITY SYSTEMS**

On the eve of the I World Conference on the Development of Universal Social Security Systems, the Organizing Commission prepares a Videoconference with the participation of the State Ministers of Health, Social Development and Fight Against Hunger, Social Security and the State Minister of Labour and Employment, apart from two more international representatives – who will bring their views on the subject.

The Videoconference that is being proposed will be held on Tuesday, October 26th, at the Auditorium of the Social Security Information and Technology Enterprise (Dataprev), from 15h to 19h. It is noteworthy that the Videoconference participants, both at the level of federative states and at the international level will be able to send their questions to panelists and discussants. The participation of all is essential.

Under the theme Universal Social Security Systems, the virtual debate will be coordinated by Manoel Messias Nascimento Melo, from the Organizing Commission of the World Conference. As discussants, two experts on the theme - Francisco Batista Júnior, President of the National Health Council (CNS) and Armando de Negri, from the People’s Health Movement/World Social Forum on Health – will be responsible for stimulating debate and launching insights to further develop the theme.
